

Meet the Seca

About Me

Hi my name is Angelica and this will be my 2nd year here at Beard as a special education classroom assistant. I also work in our after school program organized by Champions. My passion working with children started after having my two daughters and witnessing how amazing and unique each child is. I love hearing the laughs and participating in the fun while providing a learning and nurturing environment. I look forward to getting to know each family and student and sharing the joys of everyday learning.
