

Meet the Teacher

About Me

Hello! My name is Kelly Murphy. This is my fourth year working at Beard. For the first year and a half I was a special education classroom teacher. At the beginning of 2021, I took a new role within the school as an adapted physical education teacher. I look forward to adapting physical education curriculum to meet the needs of all students. Movement is not only important for healthy growth and development, but it leads to students being better able to regulate their behaviors and stay focused in class.

In my free time, I like to try new restaurants, collect plants, read, and play with my dog, Max. I look forward to a wonderful school year!
