About Me

Hi! My name is Chana Goldstein and I am one of the OTs placed at Beard. I have been at Beard for 19 years and I am placed here five days a week.

I love working with the kids on their fine motor and self care skills using crafts, sensory, and cooking activities. Often a mess, but always fun. I will also do my best to support the teachers and aides in any way I can, including providing sensory and fine motor materials to ensure your child has the necessary accommodations to thrive in school.

Email me anytime whether or not I work with your kid. Or come say "hi" at one of our school fests. See you soon!
